To log in, navigate to <http://localhost:3000/login>, enter your registered email address and password, and click 'Sign In'.

2. Employee Dashboard & Attendance Control

- Clock In / Clock Out: Track daily shift start, lunch breaks, and shift completion in real-time.
- Incidence Submission: Submit requests for extra hours, vacation, sick leave, or schedule adjustments.

3. Employee Profile & Assigned Work Schedule

Employees can review their assigned Project, Worker Type (Virtual, On-site, Hybrid, Other), Working Hours, and Extra Hours status.

4. Administrator Dashboard & Presence KPIs

5. Employee Directory & Work Profile Editor

The Employee Directory displays a list of 4 registered employees. Each entry includes a profile picture, name, email address, and a status indicator. The status can be 'Clocked Out' or 'Absent', and each entry has an edit icon.

Name	Email	Status
Test User 2	nachoyal@gmail.com	Clocked Out
Test User	nachoyal@hotmail.com	Absent
Mobile Test	mobile123@example.com	Absent
Test User	testuser@company.com	Absent

The interface includes a search bar, a 'Refresh' button, and a 'Dark' theme toggle in the bottom right corner.

Admins can edit employee details, assign projects, set shift hours, authorize extra hours, and toggle employee visibility.

6. Grouped Attendance Records & Daily Event Timelines

- Single Row per Employee: Summarizes today's live presence, first clock-in time, and latest activity.
- Click-to-Expand Accordion: Lists all events sorted from newest to oldest (descending order).

7. Exporting CSV and PDF Reports

Generate Daily Detail or Employee Summary reports for any custom date range, with one-click CSV and PDF download options.
